

**Girls! Be a part of the fun! Join an all girl Lego Robotics team forming now!**

The **FIRST Lego League** is an international competition for elementary and middle school students (ages 9-14) which emphasizes contributions of others, friendly sportsmanship, learning, and community involvement.

Each fall, teams compete at high energy regional tournaments where students, collaborating with mentors, must apply math and science concepts to solve the annual challenge.

**Can FIRST LEGO League teams transform the way we look at transportation?**

The key to the 2009 "Smart Move" Challenge is accessing people, places, goods and services in the safest, most efficient way possible. In this journey, teams will consider many modes of transportation beyond their daily routine and streamline their options by making smart moves!

**Funding provided in partnership with the Motorola Foundation and GSUSA.**
